TO WHOM IT MAY CONCERN

Dear Sirs

**re: 777Group, 158 Beddington Lane, Croydon, Surrey CR0
4TE**

We are appointed as Project Managers for the proposed development at 127-131 Park Road, London, NW8 7JB. This development will comprise of 27 luxury private apartments on the current site enclosure.

777 Demolition & Haulage Company carried out the demolition of the 5 storey residences, petrol filling station and commercial units that occupied the site. This demolition was to ground level only and excluded the removal of the petrol filling station tanks or removal of the basement to the commercial units. This was carried out within a tight space bounded by the London Underground, a canal and also a busy red route through to London. 777 Environmental Ltd also surveyed and removed all asbestos within this building as well as handling all disconnections of utilities.

This work was carried out with due diligence, speedily and to our satisfaction.

Yours faithfully

J. SKINNER
